WORK EXPERIENCE

Magpollo   **Jan 2023 - Present**
Co-Founder

- Launched a web development company focused on local businesses, completing projects for over 30 clients.
- Designed and developed responsive websites using React, resulting in increased online orders and customer engagement.
- Implemented features like real-time reservations, dynamic ordering, and API integrations with existing platforms, boosting operational efficiency using Javascript technologies.
- Collaborated with clients to understand their needs, providing tailored solutions and ensuring project success.
- Developed project management and leadership skills by coordinating a small team, ensuring on-time delivery and high-quality standards.

iTech e-Services   **Jan 2022 - Aug 2022**
Intern

- Interned at an electronics company specializing in making Printed Circuit Boards
- Collaborated with the team lead to manage and maintain office technology, ensuring optimal functionality and minimal downtime through proactive troubleshooting.
- Developed custom scripts to extract and process CSV data from EVO inventory management software, automating data retrieval and enhancing reporting accuracy.
- Maintained firewall and network security measures to protect sensitive data.

EXTRACURRICULARS

World Robotics Olympiad   **Aug 2015 - Aug 2015**
Builder   *Sochi, Russia*

- Represented my high school and Nigeria at a global robotics competition organized by LEGO
- My team won the National competition coming 1st place in my category and 3rd overall
- We built & programmed mini robots to go through increasingly difficult obstacle courses.

EDUCATION

Georgia Gwinnett College   **Jan 2021 - May 2026**
B.Sc. in Info Tech (Software Development)
